Phone Number:+254746567379

Experienced Full-Stack Software Engineer specializing in Data Engineering, with five years of expertise in designing and building scalable web and mobile applications using modern technologies. Proficient in backend data processing, ETL pipelines, database management, and cloud computing, with a strong foundation in frontend engineering to create seamless user experiences.

Skilled in problem-solving and effective collaboration with cross-functional teams, ensuring the delivery of high-quality, efficient, and scalable solutions that meet business requirements. A passionate continuous learner, always staying up-to-date with the latest industry trends and emerging technologies. Excited to bring my technical expertise, innovative mindset, and dedication to your company, driving impactful software solutions.
